

Georgia-Pacific's U.S. Environmental Protection Agency Honors

GP has a long history of mutually beneficial collaborations with the EPA – from awards and recognition, to programs aimed at enhancing safety and reducing emissions at operating facilities.

2 CERTIFIED PLANTS

ENERGY STAR® certification is earned through adherence to strict EPA requirements. The energy performance of industrial facilities is compared nationally to similar operations. Only the top 25% become certified.

5 TOP PROJECTS

Business initiatives that demonstrate leadership and commitment to reducing emissions and meeting EPA energy design criteria are eligible for ENERGY STAR® recognition.

7 CHALLENGE FOR INDUSTRY ACHIEVERS

ENERGY STAR® Challenge for Industry is a global initiative for industrial sites to reduce their energy intensity by 10% within five years.
