

Empowering Entrepreneurs

We invest in and partner with principled entrepreneurs who believe technology can help improve people's lives. KDT and Koch Labs® have generated more than \$300 million of commercial and transformational value for our portfolio companies. Our approach leads to win-win outcomes that create value for everyone involved.

How We're Different

We provide flexible capital solutions, access to our global partner network and a focus on creating mutual benefit, helping entrepreneurs and their companies innovate, scale and generate profitable growth.

Flexible Capital Solutions

From early-stage ventures to established enterprises, we understand that each business is unique and we create financial solutions that adapt to a company's specific needs.

Commercial Scaling

Through Koch Labs®, KDT connects its portfolio companies to a diverse ecosystem of subject matter experts, businesses and capabilities across Koch and our global partner network. Our partners test and iterate ideas in real-world environments.

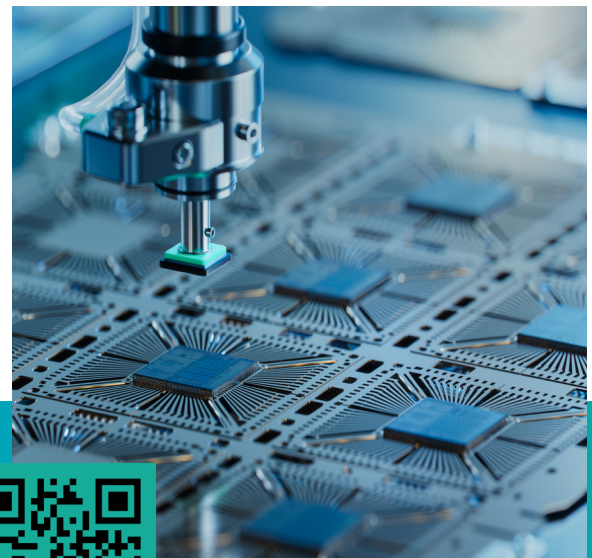

Improved Business Performance

Applying our unique business philosophy, Principle Based Management™, enables us to focus on mutually beneficial outcomes and long-term value creation. We empower our partners by providing resources and capabilities so they can focus on their core business.

A Record of Success

KDT has deployed more than \$4 billion across a portfolio of more than 70 venture and growth stage companies. We've guided our partners through funding rounds, accelerated commercialization and toward successful outcomes from strategic exits to IPOs.

Noteworthy: Celestial AI, one of our portfolio companies, was recently acquired by Marvell Technology for \$5.5 billion. It's one of the largest semiconductor exits in history.

Partner With Us

With our knowledge and capabilities, we can help accelerate growth and enable market disruption. We seek to build mutually beneficial partnerships that create value for our portfolio companies and Koch.
