

# Green Bay Operations 2024 Fact Sheet

## Work Culture/Careers

"To do meaningful work is to contribute – to create value in society." Charles G. Koch

Georgia-Pacific (GP), part of Koch Industries, has facilities throughout northeast Wisconsin that are considered critical operations for the company's long-term success.

Our company is guided by the Principle Based Management® philosophy that provides every employee with an opportunity to contribute and personally benefit from the value they create.

Our product systems business model begins with the customer and aligns every product line, so employees and equipment are as innovative, flexible and responsive as possible to the real-time needs of customers.

## Customers/Products

Many of the products we proudly make in Green Bay can be found in hotels, restaurants, airports, malls, hospitals, schools, offices, grocery and discount stores.

## Employees

More than 1,600 GP and Koch employees work in Green Bay. More than 1,180 manufacturing employees produce leading commercial and retail brands of paper products (bath tissue, napkins, towels) and approximately 500 business support employees supply engineering, transportation, information technology, and customer service company wide.

## Economic Impact – nearly \$500 million

Georgia-Pacific employees and products contribute to a strong, stable economy in Northeastern Wisconsin. Every year, GP's Green Bay manufacturing facilities:

- Purchase about \$380 million in goods and services from Wisconsin and other states
- Pay \$3 million in property taxes
- Pay approximately \$105 million in annual payroll (gross wages and taxes)

## Community Investments – nearly \$300,000

We are committed to improving the quality of life in our communities. Our priority areas are environment, education, enrichment and entrepreneurship.

In **2023**, Green Bay employees and our company foundation invested nearly **\$300,000** in local community and education-related programs. For example, we supported United Way of Brown County, and invested in science, technology, engineering and math (STEM) education programs as well as university and technical college scholarships across our community.

## Environmental, Health & Safety Stewardship

We are committed to protecting the health and safety of our employees, our community and our environment. Our safety vision is to create a workplace where no one can ever get hurt.

We strive for 100 percent compliance with U.S. Environmental Protection Agency (EPA), state and local government guidelines for protecting air and water quality, and human health.

We use recycled wastepaper to make many of our products and we are one of the largest paper recyclers in North America.

### Green Bay Broadway Mill

- Opened in 1919 (as Fort Howard Paper Company)
- Buildings: 5 million sq. ft. on 264 acres
- SQF Certified Site (2015)

#### Manufacturing Facility

- One of the largest wastepaper recycling operations and tissue producers in the world
- Celebrated its 100th anniversary in 2019
- EPA ENERGY STAR® Challenge for Industry Recognition – only recycled fiber mill in the world

### Green Bay Packerland

- Opened in 2005 as Hattiesburg Paper and then became Select Product Group (SPG) Holdings
- Purchased by Georgia-Pacific in 2014
- Building: Approximately 600,000 sq. ft.

#### Manufacturing Facility

- Highly automated facility
- Holds many industry certifications

#### Employees

- Approximately 150 employees
- Employees represent themselves
