

## Preventative Maintenance Program

### Optimize Performance, Minimize Downtime

A regularly scheduled and properly performed Preventative Maintenance (PM) program, we can help you reduce unplanned downtime, avoid possible emergency call-outs, ensure maximum availability of your equipment and extend equipment life under optimum process conditions.

Our program goal is to provide you with the maximum possible service life and performance from your equipment. Our technicians are trained in the operation of all combustion equipment sold by us. A regularly scheduled and properly performed PM program by our Service Technicians can help optimize the efficiency of your combustion equipment and reduce overall costs. Our worldwide factory trained service group, along with our engineering and technical team is available 24/7 to support your needs.

#### Services include:

- + Discuss issues and performance with operations staff
- + Check system performance
- + Review of the PM checklist
- + Verification of safeties and shutdown functionality
- + Equipment fine tuning for proper operation
- + Recommendation of spare parts to have on hand

#### Optional service add-ons:

- + Training and education
- + Equipment assessment and upgrade recommendations such as:
  - Combustion Control and Burner Management Systems
  - Modification to emission control
  - Operating procedure optimization
- + Equipment maintenance and repair supervision
- + Boiler MACT solutions

*More than parts and service—our team  
delivers Optimized Performance Solutions  
to help keep your system running  
at maximum efficiency.  
**That's smart. That's JZHC.***

## Maximize Your Uptime

Minimize the potential for costly unscheduled downtime that can have a direct impact on operations. Backed by the engineering staff of the original equipment designer and supplier, our team has exclusive resources that enable them to fine-tune your equipment for optimal performance, improved reliability, and efficient operation. We can also provide preventative maintenance on other manufacturer's equipment, giving you greater peace of mind for future performance.

### Benefits:

- + Optimized performance
- + Improved reliability
- + Extended life of equipment
- + Reduced overall cost

### Features:

- + Worldwide factory trained service group
- + 24-Hour availability
- + OEM engineering and technical support
