KOCH™

# Creating a world of opportunities

Koch is one of the largest, most diversified companies in the world. As a privately held company, we apply our capabilities across a growing range of industries, reinvesting for the long term and operating with a principle-driven approach to continually innovate and create value.

**Have exceeded $125B** in annual revenue*

**90% of earnings are reinvested** into the company, including **$190+ billion in growth and improvements** since 2003

**Koch companies reduced U.S. EPA criteria air pollutants** – among those most common to industry – by **57%** from 2008 to 2024

U.S. EPA ENERGY STAR®

## PARTNER OF THE YEAR AWARD

2017, 2021, 2022, 2023 and 2024

# Connected across companies

With a presence in more than 50 countries, Koch companies employ about 130,000 people worldwide, with nearly half of those in the United States.

**FLINT HILLS RESOURCES** From our refineries, through our approx. 4,000 miles of pipelines and terminals, come the fuels and chemical building blocks critical to moving life forward.

**GEORGIA-PACIFIC** Our paper products, such as bath tissue and paper towels, are at-home essentials. Our rigid plastic packaging and cling films support foodservice every day. Our containerboard and corrugated packaging help move commercial and household goods. And our sturdy building materials make homes and buildings possible.

**GUARDIAN INDUSTRIES** We manufacture high-performance glass that helps people improve their lives through innovative products that support daylight, security, energy efficiency and comfort.

**INFOR** An industry-specific, AI-driven business cloud software company, Infor delivers innovative solutions that drive customer value by providing deep process understanding of key verticals across distribution, manufacturing and services industries.

**INVISTA** From airbags and automotive parts to medical supplies and food packaging, our products in the nylon 6,6 and polypropylene value chains help bring many of life's essential products to market.

**KBX LOGISTICS** Provides end-to-end logistics solutions and asset services powered by technology that create a competitive advantage for our customers to deliver life's essential goods all over the world.

**KOCH AG & ENERGY SOLUTIONS** We produce innovative fertilizer and nutrient enhancement products, supply methanol used to manufacture everyday products and give energy customers the power to thrive.

**KOCH ENGINEERED SOLUTIONS** We deliver tailored solutions to optimize performance and drive ongoing progress across the industrial spectrum including mass transfer; combustion and emissions control; technology licensing; full engineering, procurement and construction; asset integrity; utility-scale solar and energy storage. Our expertise across various domains converges to solve our customers' challenges.

**KOCH INVESTMENT COMPANIES** We seek out investments and acquisitions that leverage Koch's capabilities, or create new ones, and contribute to society by helping people improve their lives.

**KOCH MINERALS & TRADING** We specialize in the innovative procurement, exchange and delivery of essential commodities that empower daily life, and the development of investments into successful ventures and new, transformative platforms.

**MOLEX** We deliver a comprehensive portfolio of connectivity solutions that empower the automotive, aerospace and defense, data center, industrial, healthcare and consumer electronics industries to innovate, transform the future and improve lives. As a global electronics leader, we are committed to enabling transformative technology innovation and realizing the infinite potential of Creating Connections for Life.
