

OMNI-FIT[®]

TECHNOLOGY

Distillation Column Process Improvements You Can't Prosper Without Them!

- ▼ Reduce the time, cost, and complexities of your next revamp with Omni-Fit[®]
- ▼ Tray and tray support designs that facilitate column revamps and performance improvements

When distillation column process improvements require radical changes to tower internals you need

Omni-Fit® is a toolbox of mechanical engineering designs for reducing the cost and down-time of revamps. The toolbox includes expansion rings, pedestal supports, and innovative tray designs. Welding on the existing tower can be minimized or eliminated. Efficiency and capacity enhancements can be achieved by using Omni-Fit® technology for your next turnaround project.

OMNI-FIT® CAN BE USED TO:

- Increase theoretical stages
- Change tray spacings
- Modify downcomer sizes or configurations.
- Install multi-pass SUPERFRAC® trays
- Change tray orientation
- Eliminate welding
- Shorten turnarounds
- Replace packing
- And more
